WASHINGTON, DC 20554

JUNE 9, 2003

SUB ; BROADBAND OVER POWER LINES
REF: ET DOCKET NO. 03-104

IT'S BEEN BROUGHT TO MY ATTENTION THAT A INQUIRY HAS BEEN MADE BY
THE FCC REGARDING BROADBAND POWER LINE DEPLOYMENT IN THE U S A.

AND THAT THIS BROADBAND (BPL) SIGNAL WOULD BE PLACED ON POWER
LINES AND EVENTUALLY ENTER PRIVATE HOMES, APARTMENTS BY
RADIATING THROUGH HOUSE WIRING CAUSING ADDITIONAL RF NOISE ON
HIGH FREQUENCY BANDS 2 to 30 MHz.

I BELEIVE THE AMERICAN PEOPLE AND THEIR REPRESENTATIVE IN
WASHINGTON SHOULD BE AWARE OF THESE PROPOSED POWER LINE
CHANGES.

FOR MYSELF, I ENJOY LISTENING TO THE WORLD BY WAY OF THE SHORT-
WAVE RADIO, ADDITIONAL BACKGROUND NOISE WILL NOT HELP RECEPTION
OF INTERNATIONAL PROGRAMS.
